## **2010 King Conservation District Vote Gets 59% Boost**

### **Election Trust & ScytI's *ePollBook* Streamlines Vote Center Sign-in**

Bellevue, WA (April 9, 2010) - **Election Trust**, working closely with **ScytI Secure Electronic Voting**, successfully integrated that company's *ePollBook* technology for the 2010 **King Conservation District** (King CD) Board of Supervisors election. ScytI's *ePollBook* solution enabled Election Trust staff to authenticate 4,400 voters across seven county-wide Vote Centers which was nearly 60% more voters than participated in King CD's 2009 Board of Supervisors election.

"We do our best to encourage participation in our annual elections and were very pleased that, despite the fact we had six fewer Voting Centers than we'd had in 2009, we were able to accommodate this year's welcome surge in participating voters," said Sara Hemphill, King CD's Interim Executive Director. "We were again pleased to have Election Trust as our balloting management partner. And we look forward to working with Election Trust to find ways we can more efficiently enfranchise voters in future elections."

"King CD's poll-site challenge meant we had to both authenticate and 'flag' a voter as an election participant in real time in order to prevent duplicate voting across any of the seven county-wide Voting Centers," added John Bodin, Election Trust's Managing Partner. "ScytI's *ePollBook* empowered us to do just that, even given King County's million-plus voter data base. We look forward to collaborating with King CD to engage more and more district stakeholders in the years to come."

#### **About Election Trust ([www.electiontrust.com](http://www.electiontrust.com))**

Election Trust brings together veteran professionals and proven technology to provide today's most innovative, efficient and secure voting solutions. In the public sector Election Trust provides cutting-edge technology and expert consulting to support today's voter demand for a more wired and transparent democracy. In the Private Sector Election Trust also provides end-to-end election management services for such clients as national political parties, trade unions, professional associations, cooperatives, property owner groups and universities.

#### **About the King Conservation District ([www.kingcd.org](http://www.kingcd.org))**

King CD is a special purpose district authorized by the State of Washington and guided by the Washington State Conservation Commission that promotes the sustainable use of natural resources through responsible stewardship. It provides information and technical assistance programs to all landowners within the district's boundaries on a voluntary, non-regulatory basis. It also provides grants for conservation-focused projects and programs, and initiates community outreach activities including: workshops; education programs; site visits; farm plans; and consultation on land, water, and wildlife management.

#### **About ScytI Secure Electronic Voting ([www.scytI.com](http://www.scytI.com))**

ScytI is a worldwide leader in the pioneering of new electronic voting and election management applications. Incorporating unique cryptographic protocols and a portfolio of international patents ScytI has developed completely secure and auditable electoral modernization solutions. This innovative technology has received numerous international awards. Among ScytI's customers are governments in Spain, France, Austria, Switzerland, United Kingdom, Philippines, Argentina, Mexico, Finland, Australia and the USA.
